

Installing Office at home

In addition to your school Office 365 account, you have unlimited online storage and it also gives you up to 5 free installs of the Office Package for use at home/on phones etc... (If on mobile – access this site on your phone and follow the same steps).

1. Go to www.office.com
2. Sign in with you school email address and password
3. Go to the main home page of Office365 and click the “Install Office” button

Click the “Office 365 apps” options and follow the install process and it will begin downloading and installing everything for you.
